

agency's Capability Delivery Division. Her Valentine's Day presentation focused on the Joint Regional Security Stacks (JRSS). JRSS is a layered cyber defense system consisting of a base layer, an agency layer and a global layer. The system is designed to detect, protect, defend and deter cyber attacks. The JRSS is made up of virtual enclaves, allowing better role-based management. During the luncheon, the chapter also recognized Jacynth Tate Agraan of Farrington High School as student of the month; Master Sgt. Shamar Jones, USAF, as Young AFCEAN of the month; Marcus Yano, SystemMetrics, as executive of the month; and William Buck, chief information officer, Navy Health Clinic Hawaii, as senior government leader of the month.

### Chapter Honors Former Defense Department CIO

The chapter's February luncheon featured the Defense Department's former chief information officer, Terry Halvorsen, and Gary Wang, deputy chief information officer/G-6. Halvorsen retired from his post February 28. Chapter Past President Chuck Corjay presented Halvorsen the AFCEA Special Recognition Gold Eagle Award for his support of the chapter. Wang discussed the challenges he faces and future investments, including focus areas for fiscal year 2017, such as enterprise services, infrastructure and network modernization. The chapter also recognized the contributions of Young AFCEANs Katie Aceto and Melissa Shaw from Deltek. Aceto has been volunteering at chapter lunches for three years. Recently, she supported the Luncheon Committee and was a registration volunteer. She also has been a Herndon High School point of contact for the AFCEA Adopt-a-School Program. Shaw has served the chapter in many capacities for the past four years through the Luncheon Committee, IT Days and the Mentor Protégé Program.
